At Johnstown Middle School, we are here to learn and to become responsible citizens by setting and achieving our goals. We believe in respecting ourselves and others. We will build strong relationships and work to develop our academic skills and our character.

MESSAGE TO STUDENTS

On behalf of the entire staff, welcome to Johnstown Middle School. We are proud of our school and the academic and extracurricular activities available to our students. Whether you are a newcomer to our school or have previously attended, we hope you will find this school year to be a memorable and exciting one. We challenge each of you to put your best foot forward every day, to be prepared, to be respectful of others, to work hard, and to take advantage of the educational opportunities offered to you. We are looking forward to helping you have a successful and rewarding year!

As a Johnstown Middle School student, you have certain rights and responsibilities. The Student Handbook provides you with information pertaining to these responsibilities. Please read and discuss the contents of this handbook with your parents and ask about anything you do not understand. You and your parents/guardians will need to sign a form, stating you have read and agree to follow this handbook. You are responsible for knowing and following the school rules.

This handbook replaces all prior handbooks and other written material on the same subjects. If any of the policies or administrative guidelines referenced herein are revised, the language in the most current policy or administrative guideline prevails. Copies of current board policies and administrative guidelines are available from the building principal and on the District's website.

SECTION I: GENERAL INFORMATION

EQUAL EDUCATIONAL OPPORTUNITY

The District provides an equal opportunity for all students pursuant to Board Policy 2260. Any person who believes he/she has been discriminated against, while at school or a school activity, should immediately contact the school district's compliance officers.

STUDENT RESPONSIBILITIES

The school's rules and procedures are designed to allow students to be educated in a safe and orderly environment. Students are expected to follow staff members' directions and obey all school rules. The staff expects students to arrive on time and be prepared to participate in the educational program. In order to keep parents informed of their child's educational progress, parents will be provided with information on a regular basis and as concerns arise. At times, it will be the responsibility of the student to deliver the information. The school may use the mail or hand delivery when appropriate. Parents are encouraged to communicate with their child's teachers and support staff.

STUDENT WELL-BEING

Student safety is the responsibility of both students and staff. Staff members are familiar with emergency procedures such as evacuation procedures, fire and tornado drills, safety drills, and accident reporting procedures. If a student is aware of any dangerous situation or accident, he/she must notify a staff person immediately.

Students with specific health care needs should deliver written notice about such needs, along with physician documentation, to the School office.

INJURY AND ILLNESS

All injuries must be reported to a teacher or the office. If minor, the student will be treated and may return to class. If medical attention is required, the office will follow the school's emergency procedures. A student who becomes ill during the school day should request permission from the teacher to go to the office. The school nurse, the middle school principal or designee will determine whether or not the student should remain in school or go home. **No student** will be released from school without proper parental permission.

TRANSFER

Students who plan to transfer to another school must have their parent notify the principal. Mandated school records will be transferred within fourteen (14) days of receipt of the request.

IMMUNIZATIONS

Students must be current with all immunizations required by law. Ohio law requires all students to be in compliance with the immunizations requirements by the 14th day after entering school. The student who does not meet the requirement after the 14th day will be excluded until requirements are met. Any questions regarding immunizations and exemptions should be directed to the school nurse or the Licking County Health Department.

HEALTH SCREENING

The District is concerned about the welfare and progress of children in the school. In an effort to consider your child's educational needs, the school conducts a variety of health screenings under the supervision of the school nurse and/or speech/language pathologist. You will be notified if a screening indicates problems or if there is a need for further medical advice. **If you do not wish your child to participate in any of these screening programs, please contact the school principal immediately.** Screenings include:

- speech/language screening
- hearing screening
- vision screening
- scoliosis screening

EMERGENCY MEDICAL AUTHORIZATION

State law requires all students to have an Emergency Medical Authorization Form completed and signed by his/her parent or guardian. Emergency Medical Authorizations shall be completed electronically prior to the start of each school year.

MEDICATION AT SCHOOL

Before a student can be given any prescribed medication, we must have on file a request form signed by both parent/guardian and a doctor. Before any non-prescribed medication or treatment may be administered, we must have on file written consent of the parent along with a waiver of any liability of the District for the administration of the medication. Only over-the-

counter medication in its original container labeled with the date and prescriptions with the student's name and exact dosage will be administered.

Control of Casual Contact Communicable Diseases

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. The School's professional staff may remove or isolate a student who has been ill or has been exposed to a communicable disease or highly-transient pest, such as lice or bed bugs.

Specific communicable diseases include diphtheria, scarlet fever, strep infections, whooping cough, mumps, measles, rubella, and other conditions indicated by the Local and State Health Departments.

Any removal will be limited to the contagious period as specified in the school's administrative guidelines. See Board policies 8450 – Control of Casual Contact Communicable Diseases, 8451 – Controlling Insect Infestations.

Direct Contact Communicable Diseases

The School Board has an obligation to protect staff and students from direct contact communicable diseases. See Board policy 8453 – Control of Non Casual Contact Communicable Diseases.

Direct contact communicable diseases include sexually transmitted diseases, AIDS, ARC-AIDS Related Complex, HIV, Hepatitis B, and other diseases that may be specified by the State Board of Health.

Control of Bloodborne Pathogens

The School Board seeks to provide a safe educational environment for students and take appropriate measures to protect those students who may be exposed to bloodborne pathogens in the school environment and/or during their participation in school-related activities. For additional information see Board policy 8453.01 – Control of Bloodborne Pathogens.

Students with Disabilities

The Americans with Disabilities Act (A.D.A.) and Section 504 of the Rehabilitation Act (Section 504) prohibit discrimination against persons with a disability in any program receiving Federal financial assistance.

A student can access special education and related services through the proper evaluation procedures. Parent involvement in this procedure is important and required by Federal (IDEIA), A.D.A. Section 504 and State law. Contact the supervisor of special education at 740-967-5461 ext. 4309 to inquire about evaluation procedures, programs, and services. See also Board policy 2460 – Special Education.

Homeless Students

Homeless students will be provided with a free and appropriate public education (FAPE) in the same manner as other students served by the Board. Homeless students will not be denied enrollment based on lack of proof of residency. For additional information see Board policy 5111.01 – Homeless Students or contact the liaison for homeless students at 740-967-6846 ext. 1101.

Children and Youth in Foster Care

Students who meet the Federal definition of "in foster care", including those who are awaiting foster care placement, will be provided a free appropriate public education (FAPE) in the same manner as all other students of the Board. For additional information, contact the liaison for children and youth in foster care at 740-967-6846 ext. 1101.

STUDENT RECORDS

Student records are confidential and protected under the Family Educational Rights and Privacy Act (FERPA). Access to student records will be in accordance with FERPA requirements. The District may disclose, without consent, "directory information." The school classifies the following information as "directory information" and as such it will be disclosed without prior consent: student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, date of graduation, and awards received. Parents must contact the school office within the first two weeks of the beginning of the school year or within the first two weeks of enrolling in Johnstown-Monroe Local Schools to request that the school not release any of the above information about the student without the parent's prior written consent.

SEARCH AND SEIZURE

School authorities are charged with the responsibility of safeguarding the students in their care. In the discharge of that responsibility, school authorities may search the person or property (including vehicles, purses, knapsacks, gym bags, etc.) of a student, with or without the student's consent, whenever they reasonably suspect that the search is required to discover evidence of a violation of law or of school rules. The extent of the search will be governed by the seriousness of the alleged infraction and the student's age. Anything that is found in the course of a search may be used as evidence of a violation of school rules or the law. The principal shall be responsible for the custody, control, and disposition of any illegal or dangerous substance, or object taken from a student. General housekeeping inspection of school property may be conducted with reasonable notice. **Student lockers are the property of the Johnstown-Monroe Local Schools, and students have no reasonable expectation of privacy in their contents or in the contents of any other District property including desks or other containers. School authorities may conduct random searches of the lockers and their contents at any time without announcement. Unannounced and random canine searches may also be conducted.**

Additionally, students have NO reasonable expectation of privacy in their actions in public areas including but not limited to, common areas, hallways, cafeterias, classrooms, and gymnasiums. The District may use video cameras in such areas and on all school vehicles transporting students to and from regular and extracurricular activities.

Anything that is found in the course of a search may be used as evidence of a violation of school rules or the law and may be taken, held, or turned over to the police. The School reserves the right not to return items that have been confiscated.

Visitors, particularly parents, are welcome at the School. Visitors must report to the office upon entering the School to sign in and obtain a pass. Any visitor found in the building without signing in shall be reported to the Principal. If a person wishes to confer with a member of the staff, he/she should call for an appointment prior to coming to the School in order to schedule a mutually convenient meeting time.

Students may not bring visitors to school without prior written permission from the Principal.

NETWORK AND INTERNET GUIDELINES

Internet access is available to Johnstown Middle School students. Each student and his/her parent/s must sign an agreement to use this resource. The purpose of the agreement is to provide the student access to the Local Area Network/Internet for educational and administrative purposes. Each student must have an account if he/she wishes for any reason to use the computer or Internet. Because there is no charge for the account, printing is restricted to educational purposes only. Misuse of technology will result in disciplinary action as deemed appropriate by the administration.

HALLWAY PROCEDURE

Students should transition through the hallways in a quiet and orderly manner. Any student who is outside the classroom after the tardy bell has rung will be marked tardy. Students may not leave the room without a pass.

LOST AND FOUND

The lost and found area is located in the JMS Diner. If you have lost an article, please visit the Diner to look for your item. Please bring items found to the office.

STUDENT SALES

No student is permitted to sell any item or service in school without the approval of the Principal. Violation of this rule may lead to disciplinary action.

USE OF TELEPHONES

School telephones are not to be used for personal calls. Except in an emergency, students will not be called to the office to receive a telephone call.

ELECTRONIC COMMUNICATION DEVICES

Students are not permitted to carry ECD's on their person throughout the school day, and all ECD's should be turned off upon entering the building. The ECD must be stored in the student's locker and turned off. ECD's are not to be used during class time without the expressed consent

of the classroom teacher and approval by the Principal.

ADVERTISING OUTSIDE ACTIVITIES

No announcements or posting of outside activities will be permitted without the approval of the principal or superintendent. A minimum of 24 hours' notice is required to ensure that the principal has the opportunity to review the announcement or posting.

ASSEMBLIES

Assemblies will be presented periodically for the purpose of recognizing special achievements, presenting speakers, and encouraging school spirit. Students are required to attend assemblies. At all times, student conduct should be appropriate. Students who misbehave will be disciplined.

LOCKERS

Lockers are the property of Johnstown Middle School and are subject to inspection and search by school personnel at any time. Trained dogs can also be used to search lockers without notice to students. The school is not responsible for items missing from lockers. Students are expected to remain in the lockers assigned to them at the beginning of the school year. Students who do not take proper care of lockers may lose the privilege of using them. Each locker has its own lock and students are required to keep the locker locked at all times. CELL PHONES, PURSES, BAGS, BACKPACKS, OUTERWEAR, AND NON-INSTRUCTIONAL BELONGINGS STAY IN THE LOCKER DURING THE DAY. Jackets and coats also stay in the locker with other belongings. Keep lockers neat and clean; throw away trash, especially food. Other than staff members, no one is permitted to open another student's locker.

RESTROOMS

The building administration will develop and communicate restroom usage rules and guidelines for the safety and well-being of all students and make adjustments as necessary. There should never be more than one student in a stall at any time for any reason, and restrooms should not be used as gathering spaces. Students not using the restrooms in accordance with the rules and guidelines may be subject to school discipline.

LUNCHTIME

When students enter the Diner, they should sit down and wait for their table to be dismissed for the food line by the lunch monitor. Students who have a negative balance of \$15.00 or more will not be permitted to purchase a hot entrée; however, other choices are always available. All trash should be thrown away when students are finished eating and the monitor has dismissed the table. Students should stay seated until the monitor dismisses them. Students may return to the lunch line, get utensils and condiments, visit the restroom and the office when needed; however, students may not move throughout the Diner to visit with friends. Students must stay out of the academic wing during their lunch period as classes are in session. Students may not enter the cafeteria area during any lunch period aside from their own.

BICYCLES, SCOOTERS, AND SKATEBOARDS

If you want to ride your bicycle to school, park at the bike rack near the school and lock your bike. Bicycles have been known to disappear if left unlocked and/or unattended after school. Bicycles, scooters, and skateboards left on the school grounds are the responsibility of the owner.

ARRIVAL

STUDENTS ARE NOT TO ARRIVE PRIOR TO 7:05 A.M. THERE WILL BE NO ACCESS TO THE BUILDING OR SUPERVISION AVAILABLE.

SECTION II: ACADEMICS

GRADING PERIODS

Students can access an online report card at the end of each 9-week period indicating grades for each academic class as long as all fees have been paid (parents and students should reference the online grade book).

SCHEDULING AND ASSIGNMENT

Schedules are provided to each student at the beginning of the school year or upon enrolling. The schedule is based on student needs and available class space. It is important to note that some courses may be denied because of available space or because of conflicts with other needed courses. Students must follow their schedules. Any changes in a student's schedule must be handled through the school counseling department. The Principal shall make all final determinations regarding any scheduling changes.

FIELD TRIPS

Field trips are academic activities held off school grounds. There are also other trips that are part of the school's co-curricular and extra-curricular program. No student may participate in any school-sponsored trip without parental consent. The Student Code of Conduct applies to all field trips. Attendance rules apply to all field trips. While the District encourages students to participate in field trips, alternative assignments will be provided for any student whose parent does not give permission for the student to attend. Students who violate school rules may lose the privilege to go on field trips. All fees must be paid prior to attending major field trips, including but not limited to the Washington D.C. trip.

GRADES

Johnstown Middle School employs a standards-referenced grading procedure, as well as additional notations that may indicate work in progress or incomplete work. The purpose of a grade is to provide evidence of the extent to which the student has succeeded in mastering the required standards. ***In general, students earn grades based upon the results of summative assessments, which may consist of tests, projects, portfolios, and other approved assessment tools.***

Grading Scale

<u>Letter</u>	<u>Percent</u>
A+	98-100
A	93-97
A-	90-92
B+	87-89
B	83-86
B-	80-82
C+	77-79
C	73-76
C-	70-72
D+	67-69
D	63-66

D-	60-62
F	0-59
I	Incomplete
S	Successful/Pass
U	Unsuccessful/Fail

Incompletes will be assigned a letter grade once a student completes the work or will convert to an F if the student fails to complete the work.

STANDARD-REFERENCED GRADING

In a standards-referenced grading system, grades reflect what a student knows and can do in relation to grade-level standards. Grades based on standards help to improve student achievement by driving educators to focus on four critical questions:

- What do students need to know and be able to do?
- How will we know that they have learned it?
- What will we do when they have not learned it?
- What will we do when they already know it?

Grades based on curriculum standards become triggers for action. Standards-based grades help teachers plan their instruction so they can challenge and support all students. They help parents know the academic areas in which a student meets or exceeds expectations, needs challenges, or needs support. Understanding the definition of each of the following assessment types and how they are used will be essential for the student and parent.

Diagnostic Assessment takes place prior to instruction to determine a student's attitude, skills, or knowledge in order to identify a student's needs.

Formative Assessment provides direction for review, re-teaching, and other adjustments for individual students or for the whole class. These assessments are for learning (initial drafts, homework, questions during instruction, etc.). Student behaviors (effort, participation, adherence to school rules, etc.) will not be included in the student's grade. Homework may be counted as a summative as determined by the teacher for up to 15% of the overall student grade. Grades will reflect achievement toward Ohio Content Standards, ACT subject areas, or the AP curriculum. For intervention purposes, the teacher will determine if reassessment on a formative is an option or a requirement.

Summative Assessment provides information to use to judge a student's achievement at the end of a period of instruction. These graded tests, exams, final drafts, performances, projects, etc., are assessments of learning. Students will have the opportunity to improve their grades by providing teachers with evidence of higher levels of performance. Students must initiate communication with teachers to begin the process of reassessment. Each teacher's reassessment process will be outlined at the beginning of the course.

Reassessment Policy: Students scoring above 89% on the original summative assessment will not be able to reassess. Only students scoring 89% or below will have the opportunity to reassess if they follow the procedure outlined in this section for reassessment. For an initial reassessment, the highest score a student can receive on a summative reassessment will be 90%. In the event of a second reassessment, the highest score a student can receive will be an 80% (Note: During reassessment, the higher of the scores will be used as the final grade for

that assessment). Students must complete all formative assignments (as determined by the teacher) to be eligible to reassess. Additionally, interventions assigned by the teacher must be completed before reassessment. Students will have 1 week to reassess (Clarification: within 1 week of the date the original assessment was returned to the student).

It is at the discretion of the teacher as to whether all or part of the original assessment will be reassessed. Reassessment format (written, oral, etc.) will also be at the discretion of the teacher. Reporting achievement separately from behaviors means that everyone can know as accurately as possible what a grade means in terms of achievement and how allied behaviors may be affecting student performance.

In addition to the above, students must comply with all additional individual course syllabus requirements pertaining to reassessment policies for that course. All courses will require remedial intervention to ensure concepts are learned by the student, and may require that some or all of the formative assignments be completed prior to reassessment. This intervention must be completed prior to a reassessment opportunity which must occur within 1 week of due date or within 1 week of the date the original assessment was returned to the student. In the case of prolonged absences (medical, court issues, etc.), the student will be allowed 1 week from the date they return to complete the assessment/reassessment missed (Depending on the length of the absence, this could be extended per administrative decision). This must be arranged with the teacher and/or administrator of the middle school.

Homework Philosophy

Homework is a constructive tool in the teaching and learning process when well-matched to the learning needs and abilities of the students. Homework provides opportunities to apply learning and to experience necessary practice. Homework promotes student responsibility and accountability by developing work habits essential for succeeding in life. Homework offers teachers, parents, and students the opportunity to be involved in and to support the learning process outside of school. To move our students forward in the learning process, teachers will assign consistent, appropriate, and meaningful homework. Homework will be a lead to both formative and summative assessments.

Late Work

Reducing points for late work distorts the achievement record the grade is intended to communicate and, in a standards-referenced grading program, may actually harm student motivation. In order to reduce or eliminate problems related to late work, support systems will be put into place (SMART intervention, study tables, etc.). Students and parents should note that Johnstown Middle School wants students to exhibit responsibility and submit assessment evidence in a timely manner; therefore, teachers will keep records of students' timeliness and may report on this behavior on the behavior-based report cards as this program is developed. Teachers also will assign consequences as they would for any other unacceptable classroom behavior. Direct parent contact is necessary, especially when the behavior is chronic. Students who are late with assessment evidence will be required to come in before school, at lunchtime, and/or after school when they will receive the assistance and time they need to complete the assessment. In standards-referenced grading, late work is an issue for disciplinary consequences, not academic consequences.

Using Zeros in Summative Assessments

In a standards-referenced system of grading, zeros will no longer be assigned to summative assessments. In the past, zeros were most commonly found in teachers' grade books when

students failed to turn in or to make-up assignments. In standards-based grading, a grade of “incomplete” will be assigned until the assessment is completed. Students may be assigned to interventions before, during, or after school in order to make up the incomplete assessments.

Zeros are ineffective as communication. They do not reflect students’ knowledge or skills. Zeros are discouraging and affect student motivation because they so radically impact a student’s overall grade and make grade improvement difficult.

Extra Credit or Use of Bonus Points

Giving extra credit or bonus points can distort a student’s grade. The purpose of a grade is to communicate a true and accurate achievement level for each individual student. Extra credit and bonus points often disguise the student’s achievements.

Incomplete Grades

When evidence of student achievement is missing, teachers will work with the student to develop objective, alternative measures for providing the evidence. If they do not, an incomplete grade will be assigned. An incomplete grade will convert to an F if the student fails to complete the work.

Academic Dishonesty Policy

Academic dishonesty will not be tolerated. Students will redo any assessment that involves academic dishonesty for the teacher to be able to effectively guide his/her instructional practice. Academic dishonesty includes plagiarism and cheating.

PowerSchool

PowerSchool is a web-based gradebook program that allows parents/guardians and students to access classroom information using the Internet. Parents/Guardians and students have access to view attendance, grades, and messages from teachers. The information will be updated no less than every week. Parents/Guardians and students can securely access PowerSchool via the Internet with a login name and password. Students and parents/guardians may not have the same usernames and passwords. A student’s information can be viewed from any computer that has Internet access. Please contact the office if you do not know your login name or password.

Homework

Since homework is an extension of the regular classroom learning process, its completion in a consistent, diligent, and timely manner is important. Failure to complete homework consistently may have an adverse effect on the student’s academic achievement and grades. Students who are missing homework assignments may be required to come in before school, and/or after school so that they can receive the assistance and time they need to complete the work or assessment.

Retention

Retention is a very serious matter and will be decided on an individual basis. However, **a student who earns a failing grade for the year in two core subjects (math, language arts, science, and social studies) could be retained, requiring him/her to repeat that grade-level.** Parents are notified on a regular basis, beginning the second semester, when a student is in danger of being retained. The decision to retain is made by the student’s teachers and the Principal. A retention decision is final. Course recovery will be assigned and passage may be required for promotion to the next grade level. Course recovery or tutoring can be arranged by parents, following approval by the Principal.

Course Recovery

Students who fail a core course for the year will be required to retake that course online during the summer. Students will also be required to report to the online lab for two hours each week for each course failed until the coursework is completed. Students who fail to complete their course recovery requirements may be denied participation in extracurricular and core curricular activities.

SECTION III: STUDENT ACTIVITIES

Johnstown Middle School provides students the opportunity to broaden their learning through curricular related activities. A curricular related activity may be for credit, required for a course, and/or contain subject matter.

Extra-curricular activities do not reflect the school curriculum, but are made available to students to allow them to pursue additional worthwhile activities. All students are permitted to participate in the activities of their choosing, as long as they meet all of the eligibility requirements.

ATHLETIC FEE POLICY

As referenced in the Athletic Handbook, athletic fees will be charged to each student who chooses to participate.

ATHLETIC ELIGIBILITY POLICY

At Johnstown Middle School, we have adopted an athletic eligibility policy in order to assist our student athletes academically. The unique opportunities presented by participation in interscholastic athletics are valuable; however, the student athlete must realize that his or her academic performance is of utmost priority.

According to the Ohio High School Athletic Association, a middle school student is eligible to participate in interscholastic athletics if the student is currently enrolled in a member school and has received passing grades in a minimum of five of all subjects in which enrolled the immediately preceding grading period. In order to ensure that each student athlete is progressing academically, we will be conducting weekly grade checks. If any athlete is earning an F in any of his/her classes, that student athlete will be assigned to mandatory, weekly study tables for ninety minutes (M, T, W, TH, and F) with the opportunity to participate in practice after study tables. Moreover, students who do not complete their assigned time (must be present and on task the entire time) will be issued a one-game/meet/event suspension. Each additional offense will result in the same consequences.

The athletic eligibility policy is a mandate for each of our student athletes. Study tables (if available) will occur immediately following the regularly scheduled school day. Athletes will be notified by the school office/coaches if they are assigned to study tables. If you have any additional questions or concerns, please feel free to contact the athletic director or Principal.

SPORTSMANSHIP

You are ALWAYS to treat opponents with courtesy and to remember that you represent our school when you are a guest, a visiting player, or on a field trip. In competitions, we do not downgrade our opponents in any way; we just cheer for our own team.

SCHOOL-SPONSORED EVENTS

Johnstown Middle School usually has several events during the year, which are open to JMS students currently enrolled and home-schooled students approved by the Principal. JMS students may not invite guests from other schools. All school rules and regulations apply to all school activities. Students must be present at school the day of the event to attend. Any student with multiple disciplinary referrals may not be allowed to attend dances. Further, students who did not successfully complete the required course recovery are not eligible to attend events.

IV: ATTENDANCE

Notification of Absence

If a student will be absent, the parents must notify the School and provide an explanation prior to the start of the school day. The parents must provide a written excuse as soon as possible after the student's absence. Parents will be notified when the student's absences reach thirty-eight (38) or more hours in one school month or sixty-five (65) or more hours in one school year.

Excused Absences

The Board considers the following factors to be reasonable excuses for time missed at school:

- A. personal illness (a written physicians' statement verifying the illness may be required)
- B. appointment with a healthcare provider
- C. illness in the family necessitating the presence of the child
- D. quarantine of the home
- E. death in the family
- F. necessary work at home due to absence or incapacity of parent(s)/guardian(s)
- G. observation or celebration of bona fide religious holiday
- H. out-of-state travel (up to a maximum of twenty-four (24) hours per school year that the student's school is open for instruction) to participate in a District-approved enrichment or extracurricular activity.
- I. such good cause as may be acceptable to the Superintendent
- J. medically necessary leave for a pregnant student in accordance with Policy 5751

Truancy

Unexcused absence from school (truancy) is not acceptable. Any student who is absent from school for all or any part of the day without a legitimate excuse shall be considered truant. A student will be considered habitually truant if the student is absent without a legitimate excuse for thirty (30) or more consecutive hours, for forty-two (42) or more hours in one school month, or seventy-two (72) or more hours in one school year. If a student is habitually truant and the student's parents have failed to cause the student's attendance, the school will take appropriate intervention actions as set forth in Board Policy 5200.

Homebound Instruction

A student shall not harass, bully, haze, persecute, intimidate, abuse or participate in any act that injures, degrades or disgraces any student, staff member or other school employee. This prohibition includes aggressive behavior, physical, verbal and psychological abuse, and violence within a dating relationship.

This policy has been developed in consultation with parents, District employees, volunteers, students, and community members as prescribed in R.C. 3313.666 and the State Board of Education's Model Policy.

Harassment, intimidation, or bullying means:

- A. any intentional written, verbal, electronic, or physical act that a student or group of students exhibits toward another particular student(s) more than once and the behavior causes both mental or physical harm to the other student(s) and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s); or
- B. violence within a dating relationship.

"Electronic act" means an act committed through the use of a cellular telephone, computer, personal communication device, or other electronic communication device.

Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional well-being. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It would include, but not be limited to, such behaviors as stalking, bullying/cyberbullying, intimidating, menacing, coercion, name calling, taunting, making threats, and hazing.

Harassment, intimidation, or bullying also means cyberbullying through electronically transmitted acts (i.e., internet, e-mail, cellular telephone, personal digital assistance (PDA), or wireless hand-held device) that a student or a group of students exhibits toward another particular student(s) more than once and the behavior causes mental or physical harm to the other student and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s).

Any student or student's parent/guardian who believes s/he has been or is the victim of aggressive behavior should immediately report the situation to the Building Principal or assistant principal, or the Superintendent. The student may also report concerns to teachers and other school staff who will be responsible for notifying the appropriate administrator or Board official. Complaints against the Building Principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports may be made to those identified above.

All complaints about aggressive behavior that may violate this policy shall be promptly investigated. The Building Principal or appropriate administrator shall prepare a written report of the investigation upon completion. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation, and/or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in the report. Where appropriate, written witness statements shall be attached to the report.

If the investigation finds an instance of harassment, intimidation, and/or bullying/cyberbullying by an electronic act or otherwise, has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include suspension or up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

If, during an investigation of a reported act of harassment, intimidation and/or bullying/cyberbullying, the Principal or appropriate administrator believes that the reported misconduct may have created a hostile learning environment and may have constituted unlawful discriminatory harassment based on a Protected Class, the Principal will report the act of bullying and/or harassment to one of the Anti-Harassment Compliance Officers so that it may be investigated in accordance with the procedures set forth in Policy 5517 – Anti-harassment.

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of aggressive behavior is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as aggressive behavior. Retaliation may result in disciplinary action as indicated above.

Deliberately making false reports about harassment, intimidation, bullying and/or other aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Deliberately making false reports may result in disciplinary action as indicated above.

If a student or other individual believes there has been aggressive behavior, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

The District shall implement intervention strategies (AG 5517.01) to protect a victim or other person from new or additional harassment, intimidation, or bullying and from retaliation following such a report.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken. If after investigation, acts of bullying against a specific student are verified, the Building Director or appropriate administrator shall notify the custodial parent/guardian of the victim of such finding. In providing such notification care shall be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation, and/or bullying.

If after investigation, acts of harassment, intimidation, and/or bullying by a specific student are verified, the Building Director or appropriate administrator shall notify in writing the custodial parent/guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in the notification.

Complaints

Students and/or their parents/guardians may file reports regarding suspected harassment, intimidation, or bullying. Such reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to the Building Director for review, investigation, and action.

Students, parents/guardians, and school personnel may make informal or anonymous complaints of conduct that they consider to be harassment, intimidation, and/or bullying by verbal report to a teacher, school administrator, or other school personnel. Such complaints shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. A school staff member or administrator who receives an informal or anonymous complaint shall promptly document the complaint in writing, including the information provided. This written report shall be promptly forwarded by the school staff member and/or administrator to the Building Director for review, investigation, and appropriate action.

Individuals who make informal complaints as provided above may request that their name be maintained in confidence by the school staff member(s) and administrator(s) who receive the complaint. Anonymous complaints shall be reviewed and reasonable action shall be taken to address the situation, to the extent such action may be taken that (1) does not disclose the source of the complaint, and (2) is consistent with the due process rights of the student(s) alleged to have committed acts of harassment, intimidation, and/or bullying.

When an individual making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Reporting Requirement

At least semi-annually, the Superintendent shall provide to the President of the Board a written summary of all reported incidents and post the summary on the District web site (if one exists). The list shall be limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.

Allegations of criminal misconduct and suspected child abuse will be reported to the appropriate law enforcement agency and/or to Child Protective Services in accordance with statute. District personnel shall cooperate with investigations by such agencies.

Immunity

A School District employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy and R.C. 3313.666 if that person reports an incident of harassment, intimidation, and/or bullying promptly, in good faith, and in compliance with the procedures specified in this policy. Such immunity from liability shall not apply to an employee, student, or volunteer determined to have made an intentionally false report about harassment, intimidation, and/or bullying.

Notification

Notice of this policy will be annually circulated to and posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. At least once each school year a written statement describing the policy and consequences for violations of the policy shall be sent to each student's custodial parent or guardian.

The policy and an explanation of the seriousness of bullying by electronic means shall be made available to students in the District and to their custodial parents or guardians.

State and Federal rights posters on discrimination and harassment shall also be posted at each building. All new hires will be required to review and sign off on this policy and the related complaint procedures.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of aggressive behavior, including bullying and violence within a dating relationship. The Superintendent or designee shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and administrative guidelines about aggressive behavior and bullying in general, will be age and content appropriate.

Annually, the District shall provide all students enrolled in the District with age-appropriate instruction regarding the Board's policy, including a written or verbal discussion of the consequences for violations of the policy to the extent that State or Federal funds are appropriated for this purpose.

Students in grades seven (7) through twelve (12) shall receive age-appropriate instruction in dating violence prevention education, including instruction in recognizing dating violence warning signs and characteristics of healthy relationships. Parents who submit a written request to the Building Director to examine the dating violence prevention instruction materials used in the school, will be afforded an opportunity to review the materials within a reasonable period of time.

The District shall provide training, workshops, and/or courses on this policy for school employees and volunteers who have direct contact with students, to the extent that State or Federal funds are appropriated for these purposes. Time spent by school staff in these training programs shall apply toward mandated continuing education requirements.

In accordance with Board Policy 8462, the Superintendent shall include a review of this policy on bullying and other forms of harassment in the required training in the prevention of child abuse, violence, and substance abuse and the promotion of positive youth development.

The Superintendent shall develop administrative guidelines to implement this policy. Guidelines shall include reporting and investigative procedures, as needed. The complaint procedure established by the Superintendent shall be followed.
